**EnviTec Biogas – 20 years  
as a market leader**

# Focused on the future: tailored solutions for maximum added value

As the first and only all-rounder in the industry, we not only offer you our decades of experience as plant engineers and technology innovators but also provide a comprehensive range of support services as well as electricity, biomethane and heat marketing. We offer everything you need to be ready for a great set of challenges in the future.

As a biogas all-rounder, EnviTec covers the entire value chain for the production, upgrading and marketing of biogas. Around 550 employees based at our sites around the world have transformed us into Europe's strongest partner for biogas and gas upgrading plants. We have installed over 545 MW<sub>el</sub> in 17 countries and in more than 700 projects.

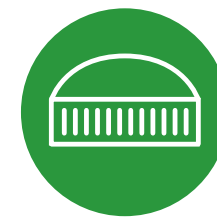

Using the insights we have gained from operating around 90 of our own biogas and gas upgrading plants, we continue to develop our technologies. For this reason, we have always been the first port of call for the most efficient plants on the market. We use our know-how to set benchmarks in our industry, and our financial security lets us act confidently while giving our customers peace of mind.

In the future, biogas is set to make an even more significant contribution to the renewables market. Developments such as bio-LNG upgrading and the production of green hydrogen from biogas offer new marketing opportunities. We are ready to face the future and we're taking our customers with us on this journey.

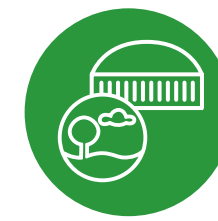

## ENVITEC IN NUMBERS

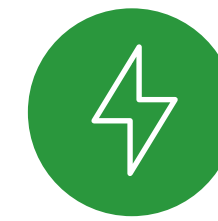

**2002**  
Foundation

**700**  
Biogas projects  
in 17 countries

**90**  
Plants in own  
plant operation

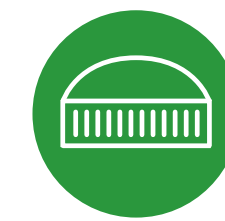

**545**  
MW<sub>el</sub> installed  
worldwide

**550+**  
Employees  
worldwide

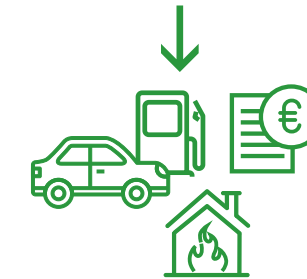

## OUR ADDED VALUE FROM BIOGAS

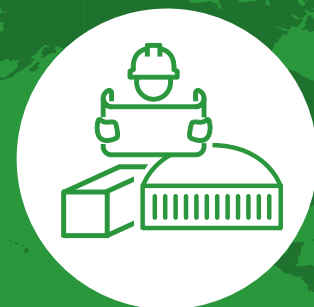

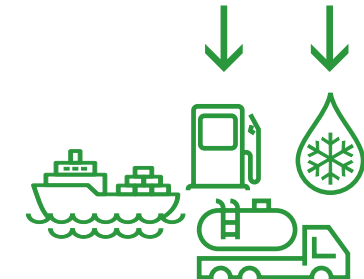

**Fermentation:  
BIOGAS**

**Upgrading:  
BIOMETHANE**

**Liquefaction:  
BIO-LNG/-LCO2**

**PLANT  
CONSTRUCTION**

**SERVICE**

**OWN PLANT  
OPERATION**

**ENERGY TRADING**

In Güstrow, we are currently building Germany's largest integrated bio-LNG liquefaction plant.
